Final Report of the Joint Bilateral Agreement CNR/CONACYT (Mexico)

Biennial Programme 2017-2018

Considering the Joint Bilateral Agreement signed on May 24, 2012, the joint call for the bilateral project program launched on June 28, 2016 and a recent exchange of emails between CONACYT (Mexico) and CNR, both Parties have jointly decided to fund, within the framework of the future joint program, up to 3 projects granting up to a maximum of 130.000 Euros per project for 2 years.

At the deadline fixed by the call, 58 proposals have been submitted to both Parties.

After the evaluation procedures performed independently by both Parties, the assessed projects of each research area obtaining the highest scores, have been taken into account.

Despite the large number of good proposals received, the Parties agreed to finance the following proposals included in a final ranking list:
